Mason
2012P02 Negative Tax Bills

The following properties are parcels for which the invoice from the first property tax warrant of the year exceeded the property's total tax liability for the year. These scenarios arise, for example, when, between the first and the second invoices, either the assessment decreased significantly, a credit or exemption was added to the property, or the property was marked as exempt. You should review these parcels with the Tax Collector to determine whether, based on if the first invoice was paid or not, either the Selectmen should issue the taxpayer a refund or the first invoice should be abated.
